

State Specifically Your Need for Graduating Early (Be Specific Regarding Your Plans):

Remaining Graduation Requirements after 2016-17 school year: (to be confirmed during summer meeting)

Conditions of Graduation:

1. If graduating mid-year, student must participate in the mid-year commencement exercise. Student does not have the option of participating in the end-of-year commencement.
2. (Mid-year only) Student must secure college acceptance letter by December 1 if planning to begin college in January. With appropriate documentation, student will be allowed to take exams in December, just prior to winter break, in order to have a finalized transcript to begin college in January.
3. Once application is approved by the principal, student may not request to return to school for the remaining semester. Note: denial letter from college for January start or change of plans does not warrant a return to school.
4. Once graduated, student will have no right to participate in any extracurricular activity, including athletics, school dances, plays, etc. Note: student will be allowed to attend the junior/senior prom.
5. Once graduated, student will have no right to access any of the benefits accorded to currently enrolled students, including bus transportation, participation in free/reduced lunch program, special education and related services. Student will also have no right to be on campus except as a visitor.
6. Student is responsible for determining whether or not this decision is the best one. Change of post-secondary plans will not constitute returning to school for remaining semesters. Consider college admissions and future plans before submitting application. Students are strongly encouraged to communicate directly with their university/college of interest to determine whether or not graduating early/mid-year is acceptable.
