

Library Media Studies offers practical study and application of information literacy and information technology skills in a service learning environment.

Students will acquire and develop organizational, interpretational, and communication skills as they work independently and collaboratively in close cooperation with guidance from the library media coordinators. They will support the information and technology needs of students and staff.

This class is offered at two levels. There is a curriculum approved by Department of Public Instruction where students will earn a letter grade.

Level 1-consists of basic introductory library skills where students will learn the operation of the library databases, shelve books and materials, assist with inventory, support staff and student information and technology needs , as well as, complete a student portfolio.

Level II will expound upon the introductory skills, where students will complete a digital portfolio that demonstrates a higher level of technology and library skill mastery beyond the introductory level.

Students will experience and appreciate a wide variety of reading, listening, and viewing resources, evaluate information from a variety of sources and formats, relate and communicate information to life experiences, expand vocabulary, and employ strategies to access, evaluate, use and communicate information.

We are looking for students who love assisting others, are self-motivated, work independently, and enjoy a technology rich environment. If are interested please fill out an application with two teacher references. We would love to work and learn with you!

 Application for Media Courses 

Heritage High School

Please return this application to HHS Library

Name _____

Grade _____

1) Media Course Applying for: (Circle One)

Library Media I
