

Course Selection Timeline for 2021-22

Selecting courses for next year requires your active participation. You have opportunities to prepare, select, review and change prior to the start of the next school year. Take advantage of resources and plan well, especially for college, NCAA and other opportunities with specific requirements. Meet deadlines. Revisit and revise your graduation plan. Do your research. Ask questions. Schedule a meeting with your counselor to discuss your career plans. Choose meaningful courses that support your academic growth, allow you to maintain and increase rigor in strength areas, but most importantly, allow you to have a well-balanced schedule that meets your needs.
